*Think before you click.*

*Data privacy is a human right and it belongs to you.*

- Prevention is better than cure. If you don't want others to hack your system, upgrade it before they do.
- Security is an investment, not an expense.
- Cybersecurity begins with you...is your password strong?
- The goal of cyber security is to ensure secure storage, control access and prevent unauthorized processing, transfer, or deletion of data.

*Prevention is better than cure*
