SHREE RANG NAVCHETAN
MAHILA ARTS COLLEGE, VALIA

NAAC Accredited 'B' Grade (2.31)

Mission

Transformational change in rural development processes by leveraging knowledge institutions to help build the Architecture of an Inclusive India

Vision

To enable higher educational institutions to work with the people of rural India in identifying development challenges and evolving appropriate solutions for accelerating sustainable growth.

Aim

To create a virtuous cycle between society and an inclusive academic system by providing knowledge and practices for emerging professions and to upgrade the capabilities of both the public and the private sectors in responding to the development needs of rural India.

❖ Regional Coordinating Institutes (RCIs):

- **The Regional Coordinating Institutions (RCIs) are identified on the basis of their earlier experience and infrastructural competence etc. These institutions will act as nodal centers for promoting & facilitate UBA network in their region.**
- **These will be responsible for grooming the other participating institutions in their region in addition to carrying out their own village cluster activities. These are the institutions identified by the NSC for the purpose of better coordination of the programme in specified areas/States.**

- The RCI will have their own login credential to view and review the work of PIs in their region. Additionally, the RCIs have a strategic role to play, they have to identify a challenge relevant in their region / states in collaboration with PIs and State government.

❖ Participating institutions (PIs)

- All participating institutions (PIs) are **expected to establish a UBA Cell** which will be responsible for carrying out the activities of the UBA. This will involve the development of an active working group consisting of motivated faculty members drawn from various disciplines.
- To guide and monitor the activities of the UBA Cell in each institution, there will be an Executive Committee and a local advisory committee (which will be chaired by the Head of the Institution).
- **The main responsibility of a UBA cell will be primarily to develop linkage with selective rural clusters**, involve in the planning process and to promote the requisite S&T interventions to improvise and expedite the developmental efforts in those clusters.
- On the other hand, **a UBA cell will also be responsible for developing the competence of its working group by appropriate orientation, training and creation of appropriate ethos within the institution towards indigenous and sustainable rural development**, and initiating requisite curricular modifications and other facilitating measures.
- **All participating institutions will be facilitated and mentored in their activities by the respective mentoring institutions in their region.**
